

## **Mobility and PhD scholarships in Neuroscience - Marseille, France – Call for international applicants**

### **Mobility fellowships for master's students**

**Up to ten NeuroSchool scholarships** (up to **1000 €/month**) are offered each year to **master students** of [our partner universities](#) for mobility of **at least 2 months within Aix-Marseille University**.

These mobilities may include **internships in laboratories affiliated to the Master of neurosciences at Aix-Marseille University**.

These scholarships are entirely funded by NeuroSchool (nEURO\*AMU, ANR-17-EURE-0029).

### **Provisional calendar**

#### **Next deadlines:**

- **Sunday, December 6th, 2020**, for stays in Marseille in spring or summer (starting between April and the end of August 2021).
- **Sunday, May 2nd, 2021**, for stays in Marseille in autumn or winter (with a start date between September 2021 and March 2022),

Attention! We encourage you to contact us and **apply as soon as possible**. Allow about **3 months** of administrative formalities for a mobility within Europe and more for a mobility from outside Europe.

NeuroMarseille and NeuroSchool fund actions aimed at training new generations of scientists, increasing the visibility and attractiveness of Aix-Marseille University and asserting its potential with socio-economic partners.

Throughout the year, you will find calls for :

- **mobility grants** to finance student exchanges with our partner universities, from the bachelor's degree (3rd year) to the doctorate level
- doctoral contracts for **international co-supervised PhDs**
- doctoral contracts for **international PhD students** (who have obtained a master's degree at a foreign university)
- funding for **interns, young MDs and PharmDs** wishing to devote a year to research as part of a PhD in neurosciences in an AMU laboratory.
- **postdoctoral fellowships in biotech companies** for young AMU doctoral graduates
- **thematic schools and scientific events** (workshops, conferences...) organized by NeuroSchool members
- applications for **additional training courses**, such as the DESU in science communication and popularisation...
